**C** Learn More About the AACR's Journals:

The screenshot shows the AACR Cancer Research journal homepage. At the top left, a yellow arrow labeled 'F' points to the 'AACR Publications' dropdown menu, which lists various research areas. At the top right, there are links for 'Register', 'My alerts', and 'Log in'. Below the navigation bar is an advertisement for the 'Translational Cancer Research for Basic Scientists Workshop' in Boston, MA, with an 'APPLY NOW!' button. A yellow arrow labeled 'E' points to a search bar with a magnifying glass icon and an 'Advanced Search' link. Below the search bar is a navigation menu with 'Home', 'About', 'Articles', 'For Authors', and 'Alerts'. A yellow arrow labeled 'D' points to the 'Alerts' link. Under the 'Articles' menu, there are links for 'OnlineFirst', 'Current Issue', 'Past Issues', '75th Anniversary', and 'Meeting Abstracts'. A yellow arrow labeled 'A' points to 'OnlineFirst', 'B' to 'Current Issue', and 'C' to 'Past Issues'. To the left of these links is a bar chart titled 'Liver Samples' showing 'Relative Expression' for various samples (N1, N3, N5, T2, T4, T6, T8, T10, T12, T14, T16, T18, T20). To the right of the 'Articles' menu is a featured article titled 'Long Noncoding RNA MALAT1 Promotes Hepatocellular Carcinoma Development by SRSF1 Upregulation and mTOR Activation' by Pushkar Malakar, et al. On the right side of the page is a large advertisement for 'Editor-in-Chief Search' with an 'APPLY FOR THE POSITION' button and images of the journal cover. At the bottom, there is a section for 'OnlineFirst Articles' with a list of recent articles.

DOI: 10.1158/1078-0432.CCR-16-0598 Published March 2017 

Article **Figures & Data** Info & Metrics PDF

### Abstract

Cancer cells tend to metastasize through lymph nodes, but the mechanisms mediating cancer metastasis to lymph nodes are not fully understood. We show that in the lymph nodes of RORyt<sup>+</sup> group 3 innate lymphoid cell (ILC3) to tumors suppresses ILC3 to tumors suppresses promoted ILC3 to tumors suppresses. Depleting ILC3 or modulating the ILC3 signaling pathway modulating the ILC3 signaling pathway. ©2017 AACR.

## My Alert Summary & Preferences

### Editors' Picks Alert

AACR offers monthly "Editors' Picks" from our journals. We highlight one article from each journal. Enter email address below and click "Subscribe":

email address

#### MY ALERTS

Manage individual alerts for ~~pubs@aacr.org~~ by clicking on the individual Alert Criteria in the table below.

To manage alerts for other AACR journals, please visit [this page](#). For Cancer Research, see below.

You do not have any alerts

#### ADD NEW ALERTS

Subscribe to new alerts by clicking on the links below.

- Add a new eTOC Alert
- Add a new Citation Alert
- Add a new Keyword/Author Alert
- Add a new Collection Alert

#### MY ALERT PREFERENCES

Alerts are sent when new results are found.

Alerts are sent in plain text format.

URLs are formatted for Australia, Brazil, China, France, Germany, Hong Kong, Ireland, Israel, Italy, Japan, Mexico, Russia, Singapore, South Africa, South Korea, Spain, Sweden, Switzerland, Taiwan, The Netherlands, UK

-  Modify my alert preferences
- How to change my email address

- A. 매달 발행되는 Editor's Picks의 수신 설정  
B. 새로운 이슈 발행 시, TOC 수신 설정 등  
C. Alert Email의 형식 설정

### Manage Alert Preferences

#### Name

Author

#### Send alerts to

[email protected] ▼

#### When to send an alert

- Only when new results are found
- Every time an alert is run, even if there are no results

#### Email format

- HTML
- Plain text

#### Maximum results in a single alert

10 ▼

#### URLs formatted for

- USA, Canada, and all other countries not listed below
- Australia, Brazil, China, France, Germany, Hong Kong, Ireland, Israel, Italy, Japan, Mexico, Russia, Singapore, South Africa, South Korea, Spain, Sweden, Switzerland, Taiwan, The Netherlands, UK

## AACR Journals Mobile

You can now access the full text of AACR journals from most mobile devices through a new interface designed to optimize small-screen navigation and mobile access.

### Mobile Access

Full-text access to AACR Journals Mobile Edition is available to all users. No additional subscription is required for mobile access. Users can access AACR Journals Online in three ways:

1. **NEW!** Voucher Access for Institutional Users
2. Onsite Institutional Subscription Access
3. Individual Subscription Access

### AACR Publications App

Access the full text of AACR journals using an interface specifically designed for the iPhone and iPad and cache full-text articles for offline viewing. Download the app from the iTunes App store or scan this QR code.

Scan the code with your SmartPhone to go to an AACR journal:
