The screenshot shows the homepage of Taylor & Francis Online. At the top, there is a navigation bar with the Informa logo, Taylor & Francis Online logo, and links for Log in, Register, and Cart. Below the navigation bar is a large banner with the text "Discover. Learn. Share." and a search bar containing the placeholder "Enter keywords, authors, DOI etc.". To the right of the search bar is a blue button with a magnifying glass icon and the text "Advanced search". A yellow callout box on the right side of the banner contains the following text:

1) 기본검색  
- 타이틀명, 키워드, 저자, DOI 등 입력  
2) 고급검색 (page 5 참고)

Below the banner, there is a section titled "주제별 브라우즈 및 검색" (Browse by specialist subject) in Korean, followed by the English translation "Browse by your specialist subject". This section contains a grid of subject categories:

검색팁

### Exact match supported for author search results

You can perform an exact author search by enclosing the name (first and/or last) of the author in quotation marks.

### Boolean operators

The Boolean operators AND, OR, and NOT can be applied to search terms.

#### AND (also + or &)

Use AND to search for documents containing two or more terms. For example, the following query returns documents containing both cat and dog:

cat AND dog

The AND operator is applied by default; for example cat AND dog produces the same results as cat dog.

#### OR

documents containing at least one of two or more terms. For example, the following query returns documents containing cat, dog, and documents containing cat and dog:

- 1) 검색어 입력 - 타이틀명, 키워드, 저자  
(+ 표시 클릭 시 검색어 추가 가능)
- 2) 출판일자 선택
- 3) 인용 검색

Use NOT to search for documents that do not contain a given term. For example, the following query returns documents containing cat but not containing dog:

cat NOT dog

Routledge Taylor & Francis Group

**Reflecting on 40 years of *Maritime Policy & Management***

**Introduction**  
HEATHER MC LAUGHLIN

In this Special issue we reflect on the changes that have made a significant impact on their own research and practice. Practitioners and scholars from the founding editors through to the present day have contributed to the development of the journal. McConville and Alderton, who were the first editors, published work on ports and shipping. Professor Trevor Heaver has been involved in ports and shipping operations and have a continuing association with the journal as reviewers and contributors.

The journal *Maritime Policy & Management* (MPM), the flagship journal of international shipping and port research, now has well over 500 international reviewers, publishes seven issues a year and is read by thousands of academics, maritime practitioners, government officials and journalists around the world through online subscriptions. Last year, we obtained our first impact factor (0.743) in the Transportation category of SSCI, which has led to a dramatic increase in submissions.

It would be remiss of me if I did not use this issue to express my sincere thanks to everyone involved in the journal's long history and continued success—authors, reviewers, administrators, editors and editorial board members. We are also grateful for the administrative support from a number of universities, and particularly to Chung Ang University, where the journal currently resides with my co-editor, Professor Kevin Li. Finally, a sincere thank you to our publishers, Taylor and Francis, for their professionalism and encouragement over the last 40 years.
